

DURA Sheets®

protection that pays

When products endure scratching, staining or mold damage during shipping or storage, the costs of replacement and repair can put a deep dent in your bottom line.

Cost-effective **DuraSheets®** manufactured by ITW Plastic Packaging, protect products from the effects of:

- exposure to the elements
- torn lumber wrapping
- loading damage

Designed to protect stacked product, **DuraSheets®** are rugged cover sheets manufactured from 100% recycled plastics.

DuraSheets® are cut to fit and protect products such as composite lumber decking and rails during transport and storage, preventing:

- scuffing and scratching
- discoloration
- mold formation
- moisture damage

In addition, **DuraSheets®** are priced reasonably and offer a payback when recycled through **ITW's National Recapture Program.**
