

**Printed Stretch Film**

# **LOGO WRAP™**

## **Logo Wrap**

Logo Wrap, custom printed with your company name or logo, helps to identify stretch wrapped loads and their origin. By using printed film, manufacturers and customers receive extra advertising space on the pallet for a product or company logo. In addition, Logo Wrap can be used to supply contact information or instructions for storage and transportation, reducing both the material costs and labor

costs associated with hand applying stickers or labels.

### **Logo Wrap dispenser**

Easily integrated into any new or existing Octopus wrapping machines, the Logo Wrap dispenser applies printed film under the standard stretch film during the normal wrapping cycle, ensuring no film tails.
