POLYESTER LASHING

One way cargo securing system

Features and Benefits

- **Flexible use**
Polyester lashing can be used at any length required.
- **Minimise damage**
Reduce cargo damage during transit with the use of Polyester lashing. A lightweight solution which is available in different strengths to suit your transit packaging needs.
- **Weather resistant**
Polyester lashing is resistant to harsh weather conditions making the product suitable during sea transit, across railways and roads.

Polyester Lashing Accessories

We also offer a complete range of accessories for the best use of the different lashing, such as:

- **Buckles**
- **Hangstraps**
- **Tensioners**
- **Dunnage Bags**
- **Container Magnets**
- **Antislip Sheets**
- **Edgeboard**

To easily connect the lashing to the interior of the container it is possible to use the container magnet accessory. Additional accessories include Hangstraps, Edgeboard (Angleboard) and buckles. The Hangstraps work with a modular system to hold the tension belt in position, this reusable solution is used to attached the upper lashing points to the top of the container. The Edgeboard offers improved protection to the cargo when it is secured on the corners. Buckles assist with the closure of lashing and support the product to be reused.
