

Carton Forming Machine

CE 12

Maximizes Productivity

Erects and bottom seals up to 12 cases per minute

Minimal Setup

Intuitive changeover feature saves time and increases efficiency

Compact Footprint

Case flow technology allows for in-line, compact footprint

Superior Performance

Chain and lug drive system provides case squaring during sealing

CE 12

Carton Forming Machine

CE 12 Carton Forming Machine delivers reliable, high-speed carton erecting with flexible configurations, has been designed to boost efficiency, reduce costs, and ensure consistent packaging quality across industries

Features

- Handles multiple carton sizes and formats
- Enclosed system with controlled mechanisms
- Quick changeover based on carton size
- Smooth integration into existing packaging lines
- Reduced carton damage due to precise handling
- Efficient tape usage and minimizes consumable wastage
- Reduces labor dependency
- Consistent output improves packaging line efficiency

Parameter	
Working Speed	0 - 12 case /min
Tape Width	4.8 – 7.2cm (Bopp tape or draft paper tape)
Carton size	L :250 – 530 mm W:150 – 400 mm H: 150 – 400mm (after sealing the top and bottom flaps) H: 225 – 600mm (after folding and sealing the bottom flap)
Power Requirement	0.4 KW
Voltage	1P 220V 50HZ (optional)
Air supply	≥6Kgf/cm ² (~85 psi)
Worktable height	650mm (standard) – 1000mm (maximum, customer-made)
Noise	≤75DB
Machine size (L/ W/ H)	L 3045 × W 1855 × H 1300mm
Machine weight	~ 950 kg (net)
