

Inflators for Stopak[®] Airbags

Comfortable design

Easy to handle and fill different sizes of airbags

Fast inflation technology

Engineered to fill the dunnage airbags quickly and efficiently

Reduce Costs

Faster filling of Airbags leads to faster turn-around-times

Multiple Options

Based on the application, several options available

Inflators for Stopak® Airbags

We provide multiple inflators for Stopak® Airbags; Fatboy™ Inflator, Digital Jumbo Inflator and the Auto Shut off Inflator (ASI). These come with unique benefits for fast and easy airbag inflation.

Fatboy™ Inflator

Digital Jumbo Inflator

Auto Shut off Inflator (ASI)

Inflator	Fatboy™ Inflator	Digital Jumbo Inflator	Auto Shut off Inflator (ASI)
Application Range	Level L0 - L2 & Square airbags	Entire Stopak dunnage airbag range	Entire Stopak dunnage airbag range
Source	Electric-powered	Compressed air with Venturi assist (reduced air requirement)	Compressed air with Venturi assist
Pressure Capability	Up to 3 psi	Digital pressure reader, up to 120 psi	Adjustable 1 psi (0.07 Bar, 7 kPa) to 120 psi (8.3 Bar, 83 kPa) via presets
Flow rate	upto 300 LPM	upto 644 LPM at 8 Bar line pressure	upto 520 LPM at 8 Bar line pressure
Technology Highlights	Patented Striker™ head; clip-on Striker™ slinky (custom lengths)	Real time pressure reading; Venturi-assisted; 360° flexible Striker slinky	App-based preset pressure (psi, Bar and kPa); Auto shut-off; Built-in flashlight
Ergonomics / Handling	Handle and shoulder strap for portability	Right-angled head for narrow voids; flexible, high-reach use Light weight	Assists in poor-light situations; automated, consistent inflation
Best Use Case	Fast inflation for low-mid level airbags	High-speed, precise inflation across bag types including tight spaces	Precise and repeatable inflation control
Weight	3.5 kg (with 78" slinky)	0.52 kg (with 4" slinky)	1.06 kg (with 2 AA Battery + Charger + 4" slinky)

*These inflators are CE certified.
