

Cushionex

Cushionex™ Plastic Protection

Branding Exposure

Add your brand during the transit of products

Protection

Provides load securement

Highly Sustainable

100% recyclable

Minimize Costs

Economic method for protection

Cushionex plastic protection, also sold under the Metwrap brand, offers maximum load stability, reduced contamination and great product protection.

They are moisture, bacteria and chemical resistant. Available in multiple gauges to suit different product applications, they are ideal for a wide range of industries, including those making beverages, PET Bottles, Metal coils and Construction material.

Features and benefits

■ Complies with ASTM Standards

Impact Resistance: ASTM 256
Tensile: ASTM 638
Edge Crush Testing : ASTM 6414

■ Cost effective

Reusable product, offering a greater return on investment

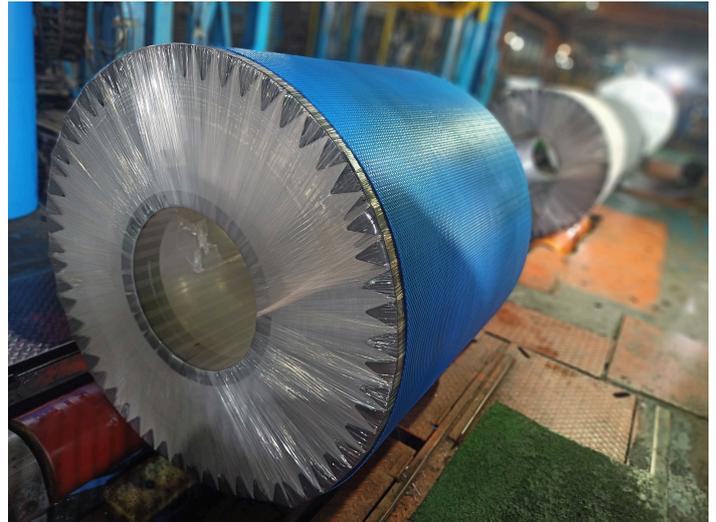

■ Easy to integrate

Smooth flat surface, Compatible with industry pallets, rounded corners, Anti- Static properties

■ Customizable

Available in multiple colors and sizes, with optional branding provision

*Produced in compliance with EPR Regulatory requirements
