

Angleboard™ Edge Protection Products

■ Angleboard®

Angleboard is made of multiple plies of recycled paper and provides superior edge protection, pallet guarding, unitization, load stability, beam strength, and stacking strength.

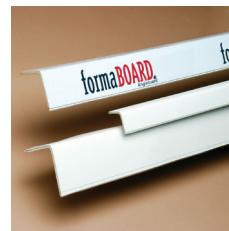

signode.com/en-us/productslist/angleboard

■ Formaboard™

Formaboard is a lightweight and water/moisture-resistant paper-based protection, making it ideal for transporting refrigerated or frozen foods.

signode.com/en-us/productslist/formaboard

■ Anglewrap

AngleWrap is made of multiple plies of recycled paper encased in a full outer wrap, delivers exceptional edge protection, pallet guarding, unitization, load stability, beam strength, and stacking strength.

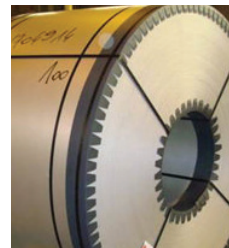

signode.com/en-us/productslist/angleboard

■ OD/ID (Plastic)

Polyethylene inner and outer diameter protectors are designed to contour the circumference of paper rolls and metal coils, safeguarding the edges from strap damage.

signode.com/en-us/productslist/od-id-protector-plastic

■ APXboard

APXboard laminated paper packaging is designed with a construction that minimizes leg caliper while maximizing paper at the apex. This design forms a rigid right angle that ensures superior strength for maximum load stability.

signode.com/en-us/productslist/apx-board

■ OD/ID (Laminated Paper)

Inner and outer diameter protectors are tailored for paper rolls and metal coils, contouring to their circumference. They help protect both the inside and outside edges from damage during shipping and handling.

signode.com/en-us/productslist/od-id-protector-laminated-paper

■ Brick Edge / Bladerunner

Polyethylene brick/block edge and side protection enhances load stability and improves brick alignment. It is specifically designed to withstand outdoor weather conditions during storage and shipping.

signode.com/en-us/productslist/brick-edge

■ Perforated Angleboard

Perforated Angleboard is made of multiple plies of recycled paper laminated together and formed into a rigid right angle. It is perforated for easy snapping by hand to the ideal length.

signode.com/en-us/productslist/perforated-angleboard

■ Cornerboard™

Cornerboard edge protection is a high-strength, moisture-resistant corner protector made from recycled paper and plastic. This makes it ideal for products exposed to the elements, shipped on flatbed trucks, stored outdoors, or subjected to high humidity.

signode.com/en-us/productslist/cornerboard/

■ SB Series (Produce Board)

SB Series edge protection, also known as produce board, is the perfect solution for reducing overall packaging costs per load across a wide range of agricultural, commercial, and industrial markets and goods.

signode.com/en-us/productslist/sb-series

■ EcoEdge

EcoEdge corner post and edge protection combines recycled paper and plastic without a paper outer wrap. It is an excellent solution for high-moisture environments, such as perishables, outdoor storage, and container or flatbed shipments.

■ Strap Edge Protectors

Strap Edge Protectors are short pieces of multiple plies of recycled paper that safeguard edges from strap damage.

Straight Edge Protection – Technical Specifications

Product	A Leg Height	B Leg Length or Base Width	C Caliper	D Length
*Angleboard®/ **Anglewrap ‡	1.5" – 4"	1.5" – 2.5"	.060" – .500"	2" – 240"

- *Combined Angleboard leg lengths cannot exceed 8"
- **Combined AngleWrap leg lengths cannot exceed 5" leg lengths measuring more than 5" will be manufactured in Angleboard (non-wrapped) product.
- ‡ Perforations are available for Angleboard and Anglewrap
- +Custom sizes are available.
- Leg measurements taken externally, Product can be provided in alternative sizes.
