Features and benefits

■ All in One solution

MIMA FLEX gathers all stakeholders into one transparent solution for your end of line packaging: machine, consumable and service with one single entry point.

■ Simplified process

Manage your machine park with ease: access the best, up to date equipment with the most relevant consumable for your application. Consumable pricing is index based and parts included in the agreement. Our experts qualify your need and tailor the best solution for maximum efficiency.

■ Streamlined operations for end of line

No initial investment, no financial depreciation: improve working conditions and streamline your cost per pallet.

■ Scalability

Rent is calculated according to your park and can be adjusted to your flow.
