MH-EX
for the Export Hay Industry

Side seal plastic strapping machine

Customer-driven design to increase throughput and maximize productivity

- Quick-change modular head technology for minimum downtime
- Horizontal or vertical configurations with single, dual or quad head options
- Adjustable strapping head center lines as little as 10” apart

MADE IN U.S.A.
Unparalleled reliability and flexibility

- Automatic strap loading
- Strap chute debris protection
- 50% fewer moving parts than any competitive machine
- Simplified maintenance
- Programmable automatic refeed
- Specially designed hot knife for long-lasting operation

Hay Advantage Program

Signode’s Hay Advantage Program, which is included with a strap commitment, features unparalleled product support throughout the life of the machine. Program support includes on-site training and regular service audits. If there is a problem, our local depot repair and 24-hour customer support will get you up and running quickly. In addition, the Signode Hay Advantage Program features discounted labor and spare parts rates, and includes loaner sealer and feeder modules if necessary.
